Not only that, but you also own a series of supercars such as Mercedes CLK GTR, Mercedes SLS AMG, Ford Mustang 2015 ... Let's race hard, despite all the challenges and struggles of the opponent. Overcoming all the limits of the competition to show your talent. Download Asphalt 8 mod to become a pro racer on every track! Can you believe it? I'm really introducing Asphalt 8 MOD APK (Unlimited Money, Free Shopping) - an old game of Gameloft. I still know that this company has launched Asphalt 9 last year, but there are certain reasons for me to decide on review this game, but most importantly, there are still many players playing now. About Asphalt 8: Airborne The structure of this article may be slightly different from the usual writing, I will focus on comparing Asphalt 8 with its successor Asphalt 9. And here are the reasons why Asphalt 8 has so many players now. Can play without a network connection This is quite an important reason. Asphalt 9 requires players to connect to the network to play, and also limit the area. Not all players are eligible to play Asphalt 9, so Asphalt 8 will be a better choice. Beautiful graphics, many old phones can still play Asphalt 9's graphics are rated by the experts as the most beautiful in the series. Of course, the configuration of mobile devices is increasingly improved, so the games that released later are naturally benefiting. But what if you're using an old mobile device? It is still very good to be able to play a top racing game like Asphalt 8. Talk a little bit about graphics. Asphalt 8 owns 3D graphics with high detail. The effects of fire and explosion are quite nice and amazing. The landscape of the track is beautiful, in addition to the weather effect and time. In particular, the sound of the car's engine is recorded from real cars, bringing a realism and refreshing feeling to the players. The system of supercars in the game is reproduced based on reality, so players will still feel the authenticity of the game and the big investment of this game company. Touching to cars like Chrysler ME412 (Chrysler ME Four-Twelve), Ferrari FF, Ford 2006 GT, Mercedes CLK GTR, Mercedes SLS AMG, 2015 Ford Mustang is not something too far-fetched. Gameplay The gameplay of Asphalt 9 inherits from Asphalt 8, so there are not too many differences in the gameplay of these 2 versions. It's easy to get used to the game, through storyline gameplay. Next, you can explore all the modes that this game brings. The way of control is not too much change. Still simple touches on a simple screen. What makes Asphalt 8 is an excellent choice? Asphalt 9 forces users to connect to the network and it can be said that it "too expensive" although free. Free to play, pay to win is the right word to talk about A9. While Asphalt 9 players may have to spend money, Asphalt 8 is a completely offline game. As such, you will benefit in many ways: No internet connection, no Internet fees when playing. It takes less battery Especially Asphalt 8 is easier to MOD, download and install Asphalt 8 MOD APK will allow players to have many benefits such as Free Shop, Infinite Money or Unlock Supercars Free... That great, isn't it? Gameloft is famous for its ability to suck blood gamers. And this game is also on the list because if you want to buy and upgrade your car, you will have to spend relatively much. Don't worry, download and use the MOD version of this game and everything will be solved. MOD features Unlimited Money Free Shopping Note Play offline to prevent from problems! FAQs How to fix "0% Downloading actual game"? If you get 0% Downloading actual game error, please take the following steps to fix it. Step 1: Install Asphalt 8 from Google Play. When the download progress increases by a few percent, you can cancel. Step 2: Install the MOD version. Step 3: The download will work normally. How to fix "Code: 500, Message: Asset Pack Download Error (-13)"? If you get the error "Code: 500, Message: Asset Pack Download Error (-13), The app is not owned by any user on this device. An app is owned if it has been acquired from Play," then do the following: Step 1: Install Asphalt 8 from Google Play. When the download progress increases by a few percent, you can cancel.
